

The Leicester Friends of the OCHS presents

Creation or Evolution: Hindu Perspectives

Dr Nick Sutton Ph.d., B.A. (Hons) **of the
Oxford Centre For Hindu Studies**

In recent decades religion has increasingly become involved in the debate over the extent to which scientific theories about the origins of the world and of life threaten the integrity of religious revelation. Such debates usually focus on Christianity and to a lesser extent Islam as these are religious traditions that emphasise the importance of scriptural revelation, but how do such questions affect Hindu teachings and Hindu ideas about the world? In this talk we will consider the responses that Hinduism has to offer to the challenges presented by modern scientific theory.

The Oxford Centre for Hindu Studies is an institute for the study of Hindu culture, religion, languages, literature, philosophy, history, arts, and society, in all periods and parts of the world.

Saturday 31st March 2012
